

10.5.3 Unitary Heat Pump Water Heater

Unitary heat pump water heaters combine the tank and compressor in a single unit.

Requirements and Specifications

These measures are available for new and existing, single-family homes and manufactured homes. Savings for multifamily homes have yet to be demonstrated and may not be claimed.

Unitary Heat Pump Water Heaters may be rebated by the utility or distributed by Retail (Simple Steps and utility-run retail programs). Retail measures must follow the Measure Distribution Processes in the Multisector chapter.

In existing homes, the Unitary Heat Pump Water Heater must replace an electric storage water heater on a one-to-one basis.

Unitary HPWHs must be (1) listed on [BPA's HPWH Qualified Products List](#); and (2) installed according to manufacturer's specifications. (If a customer believes a product should be on the list, and it is not, the customer should use the [COTB Request & Acknowledgment Procedure](#) to request approval to use the product.)

Documentation Requirements

| DOCUMENTATION DESCRIPTION | RETENTION/SUBMITTAL LOCATIONS | | |
|--|--|--------------------------------------|---------------|
| | BPA ENERGY EFFICIENCY REPORTING SYSTEM | EEDOCs@BPA.GOV OR FAX 1-866-535-7955 | CUSTOMER FILE |
| Equipment/contractor invoice showing (a) the measure requirements have been met (e.g., manufacturer, model number, type, size and quantity of equipment or product installed/used), (b) the order/purchase date, and (c) cost OR for Retail measures follow the Documentation Description of the Retail delivery mechanism found in the Multisector section. | | | X |

Payment

| MEASURE | PAYMENT | RETAIL |
|-------------------------------------|---------|--------|
| Unitary HPWH Tier 1 – Any size tank | \$300 | \$300 |
| Unitary HPWH Tier 2 – Any size tank | \$500 | \$500 |
| Unitary HPWH Tier 3 – Any size tank | \$500 | \$500 |
